They relieve the bowels, purify the bits and blood, and invigorate the constitution, at one and the same time. To this fact all who try them will subscribe. The absence of minerals, and of every slupefying drug, renders them harmless, even to the most delicate founds, or the feeblest child. No one can doubt their superiority after one single trial—they are not only better but, in fact, changer than any other Fills, for its taken a less number of them to preduce a better effect.
